

Easy access to raised levels, decks and porches

A Bruno VPL provides safe, convenient access for people who use mobility devices. Simple, user-friendly controls, emergency stop switch, and automatic self-lowering exit ramp are just a few of the features that make these units safe, reliable, and easy to operate. Available in models designed for both indoor and outdoor use, multi-level access can be achieved virtually anywhere.

Standard Features:

- Weather-resistant controls
- 750 lb/340 kg lifting capacity
- Maximum lifting heights range from 53" to 147", depending on model
- Emergency stop switch on platform – push to stop, pull to reset
- Non-skid platform and ramp surfaces
- Integrated safety sensors underneath the platform detect obstructions and stop the unit
- Considerably smaller footprint than wheelchair ramps, making them ideal for garage access into the home
- Gold warranty two years on major components, and one year on parts
